

PATIENT PORTAL

Connecting with Patients. Anywhere, Anytime.

e-MDs Patient Portal: An integrated, secure internet-based solution that enhances the physician-patient relationship, improves quality of care and reduces operational expenses. Clinics can share lab results,

appointments and health maintenance reminders directly with patients. Patients can view and update health summaries, schedule appointments and request refills and referrals, via any internet connection.

APPOINTMENTS | REMINDERS | INSTANT MEDICAL HISTORY | PATIENT HEALTH RECORD | MESSAGING
